MEMORANDUM FOR DISTRIBUTION

SUBJECT: Microsoft Windows Phone 8.1 Security Technical Implementation Guide (STIG)
Version 1

Reference: DoD Instruction 8500.01

DoD Instruction 8500.01 tasks DISA “develops and maintains control correlation identifiers (CCIs), security requirements guides (SRGs), security technical implementation guides (STIGs), and mobile code risk categories and usage guides that implement and are consistent with DoD cybersecurity policies, standards, architectures, security controls, and validation procedures, with the support of the NSA/CSS, using input from stakeholders” and DoD Component heads “ensure that all DoD IT under their purview complies with applicable STIGs, security configuration guides, and SRGs.”

All applicable technical NIST SP 800-53 requirements were considered while developing this STIG. Requirements that are applicable and configurable are included in the STIG. A compliance report marked For Official Use Only (FOUO) is available for further items that did not meet the requirements. The compliance report is available to component Authorizing Official (AO) personnel for use in their certification and risk assessment. AO requests for the compliance report may be sent via email to disa.stig_spt@mail.mil.

This guidance applies only to Microsoft Windows Phone 8.1 with General Distribution Release 2 (GDR2 - build 8.10.15116 or higher) and related components and applications mentioned herein and excludes any other components relying on the Microsoft Windows Phone 8.1 device. This STIG is solely for use with Microsoft Windows Phone 8.1 devices and does not support tablets or other computing devices based on Microsoft Windows 8.1.

In accordance with DoD Instruction 8500.01, the Microsoft Windows Phone 8.1 STIG Version 1 is released for immediate use. The document is available on <http://iase.disa.mil>.

Point of contact for this action is DISA STIG Support Desk, email:
Disa.stig_spt@mail.mil.
